

## CHAPTER 105

# SOLID WASTE CONTROL

105.01 Purpose  
105.02 Definitions  
105.03 Sanitary Disposal Required  
105.04 Health and Fire Hazard  
105.05 Open Burning Restricted  
105.06 Separation of Yard Waste Required

105.07 Littering Prohibited  
105.08 Toxic and Hazardous Waste  
105.09 Waste Storage Containers  
105.10 Prohibited Practices  
105.11 Recycling Program  
105.12 Sanitary Disposal Project Designated

**105.01 PURPOSE.** The purpose of the chapters in this Code of Ordinances pertaining to Solid Waste Control and Collection is to provide for the sanitary storage, collection, and disposal of solid waste and, thereby, to protect the citizens of the City from such hazards to their health, safety and welfare as may result from the uncontrolled disposal of solid waste.

**105.02 DEFINITIONS.** For use in these chapters the following terms are defined:

1. “Collector” means any person authorized to gather solid waste from public and private places.
2. “Discard” means to place, cause to be placed, throw, deposit, or drop.  
*(Code of Iowa, Sec. 455B.361[1])*
3. “Dwelling unit” means any room or group of rooms located within a structure and forming a single habitable unit with facilities which are used, or are intended to be used, for living, sleeping, cooking and eating.
4. “Garbage” means all solid and semisolid, putrescible animal and vegetable waste resulting from the handling, preparing, cooking, storing, serving and consuming of food or of material intended for use as food, and all offal, excluding useful industrial by-products, and includes all such substances from all public and private establishments and from all residences.  
*(IAC, 567-100.2)*
5. “Landscape waste” means any vegetable or plant waste except garbage. The term includes trees, tree trimmings, branches, stumps, brush, weeds, leaves, grass, shrubbery, and yard trimmings.  
*(IAC, 567-20.2[455B])*
6. “Litter” means any garbage, rubbish, trash, refuse, waste materials, or debris not exceeding 10 pounds in weight or 15 cubic feet in volume. Litter includes but is not limited to empty beverage containers, cigarette butts, food waste packaging, other food or candy wrappers, handbills, empty cartons, or boxes.  
*(Code of Iowa, Sec. 455B.361[2])*
7. “Owner” means, in addition to the record titleholder, any person residing in, renting, leasing, occupying, operating or transacting business in any premises, and as between such parties the duties, responsibilities, liabilities and obligations hereinafter imposed shall be joint and several.
8. “Refuse” means putrescible and non-putrescible waste, including but not limited to garbage, rubbish, ashes, incinerator residues, street cleanings, market and industrial solid waste and sewage treatment waste in dry or semisolid form.  
*(IAC, 567-100.2)*

9. “Residential premises” means a single-family dwelling, which may include a maximum of two separate family dwellings. Multi-family dwellings, apartment complexes, and row-type housing units are considered residential premises regardless of the total number of such apartments or units, but may be handled as a commercial account if the City chooses.

10. “Residential waste” means any refuse generated on the premises as a result of residential activities. The term includes landscape waste grown on the premises or deposited thereon by the elements, but excludes garbage, tires, trade wastes and any locally recyclable goods or plastics.

*(IAC, 567-20.2[455B])*

11. “Rubbish” means non-putrescible solid waste consisting of combustible and non-combustible waste, such as ashes, paper, cardboard, tin cans, yard clippings, wood, glass, bedding, crockery, or litter of any kind.

*(IAC, 567-100.2)*

12. “Sanitary disposal” means a method of treating solid waste so that it does not produce a hazard to the public health or safety or create a nuisance.

*(IAC, 567-100.2)*

13. “Sanitary disposal project” means all facilities and appurtenances including all real and personal property connected with such facilities, which are acquired, purchased, constructed, reconstructed, equipped, improved, extended, maintained, or operated to facilitate the final disposition of solid waste without creating a significant hazard to the public health or safety, and which are approved by the Director of the State Department of Natural Resources.

*(Code of Iowa, Sec. 455B.301)*

14. “Solid waste” means garbage, refuse, rubbish, and other similar discarded solid or semisolid materials, including but not limited to such materials resulting from industrial, commercial, agricultural, and domestic activities. Solid waste may include vehicles, as defined by Section 321.1 of the *Code of Iowa*. Solid waste does not include any of the following:

*(Code of Iowa, Sec. 455B.301)*

A. Hazardous waste regulated under the Federal Resource Conservation and Recovery Act, 42 U.S.C. § 6921-6934.

B. Hazardous waste as defined in Section 455B.411 of the *Code of Iowa*, except to the extent that rules allowing for the disposal of specific wastes have been adopted by the State Environmental Protection Commission.

C. Source, special nuclear, or by-product material as defined in the Atomic Energy Act of 1954, as amended to January 1, 1979.

D. Petroleum contaminated soil that has been remediated to acceptable State or federal standards.

E. Steel slag which is a product resulting from the steel manufacturing process and is managed as an item of value in a controlled manner and not as a discarded material.

**105.03 SANITARY DISPOSAL REQUIRED.** It is the duty of each owner to provide for the sanitary disposal of all refuse accumulating on the owner’s premises before it becomes a nuisance. Any such accumulation remaining on any premises for a period of more than 30

days shall be deemed a nuisance and the City may proceed to abate such nuisances in accordance with the provisions of Chapter 50 or by initiating proper action in district court.

*(Code of Iowa, Ch. 657)*

**105.04 HEALTH AND FIRE HAZARD.** It is unlawful for any person to permit to accumulate on any premises, improved or vacant, or on any public place, such quantities of solid waste that constitute a health, sanitation or fire hazard.

**105.05 OPEN BURNING RESTRICTED.** No person shall allow, cause or permit open burning of combustible materials where the products of combustion are emitted into the open air without passing through a chimney or stack unless conducting such burning in accordance with the *International Fire Code*.

**105.06 SEPARATION OF YARD WASTE REQUIRED.** All yard waste shall be separated by the owner or occupant from all other solid waste accumulated on the premises and shall be composted or burned on the premises or placed in degradable bags, containers or packages, as required by the City, and set out for collection. Yard waste shall be collected by the City at such times as established by the Council. Yard waste must be placed three to six feet from other solid waste awaiting collection. As used in this section, "yard waste" means any debris such as grass clippings, leaves, garden waste, brush, and trees. Yard waste does not include tree stumps.

**105.07 LITTERING PROHIBITED.** No person shall discard any litter onto or in any water or land, except that nothing in this section shall be construed to affect the authorized collection and discarding of such litter in or on areas or receptacles provided for such purpose. When litter is discarded from a motor vehicle, the driver of the motor vehicle shall be responsible for the act in any case where doubt exists as to which occupant of the motor vehicle actually discarded the litter.

*(Code of Iowa, Sec. 455B.363)*

**105.08 TOXIC AND HAZARDOUS WASTE.** No person shall deposit in a solid waste container or otherwise offer for collection any toxic or hazardous waste. Such materials shall be transported and disposed of as prescribed by the Director of the State Department of Natural Resources. As used in this section, "toxic and hazardous waste" means waste materials, including but not limited to, poisons, pesticides, herbicides, acids, caustics, pathological waste, flammable or explosive materials and similar harmful waste which requires special handling and which must be disposed of in such a manner as to conserve the environment and protect the public health and safety.

*(IAC, 567-100.2)*

*(IAC, 567-102.13[2] and 400-27.14[2])*

**105.09 WASTE STORAGE CONTAINERS.** Every person owning, managing, operating, leasing, or renting any premises, dwelling unit or any place where refuse accumulates shall provide and at all times maintain in good order and repair portable containers for refuse in accordance with the following:

1. Container Specifications. Waste storage containers shall comply with the following specifications:

A. Residential. Residential waste containers, whether they are reusable, portable containers or heavy-duty disposable garbage bags, shall be no more than 33 gallons in capacity and shall be leak-proof and waterproof. The total

weight of any container and contents shall not exceed 65 pounds. Disposable containers shall be kept securely fastened and shall be of sufficient strength to maintain integrity when lifted, and reusable containers shall be in conformity with the following:

- (1) Be fitted with a fly-tight lid which shall be kept in place except when depositing or removing the contents of the container;
- (2) Have handles, bails, or other suitable lifting devices or features;
- (3) Be of a type originally manufactured for the storage of residential waste with tapered sides for easy emptying;
- (4) Be of lightweight and sturdy construction.

Galvanized metal containers, rubber or fiberglass containers and plastic containers which do not become brittle in cold weather may be used.

B. Commercial. Every person owning, managing, operating, leasing or renting any commercial premises where an excessive amount of refuse accumulates and where its storage in portable containers as required above is impractical, shall maintain metal bulk storage containers approved by the City.

2. Storage of Containers. Residential solid waste containers shall be stored upon the residential premises. Commercial solid waste containers shall be stored upon private property, unless the owner has been granted written permission from the City to use public property for such purposes. The storage site shall be well drained and fully accessible to collection equipment, public health personnel, and fire inspection personnel. All owners of residential and commercial premises shall be responsible for proper storage of all garbage and yard waste to prevent materials from being blown or scattered around neighboring yards and streets.

3. Location of Containers for Collection. Containers for the storage of solid waste awaiting collection shall be placed at the curb or alley line by the owner or occupant of the premises served. Containers or other solid waste placed at the curb line shall not be so placed more than twelve hours in advance of the regularly scheduled collection day and shall be promptly removed from the curb line following collection.

4. Nonconforming Containers. Solid waste placed in containers which are not in compliance with the provisions of this section will not be collected.

**105.10 PROHIBITED PRACTICES.** It is unlawful for any person to:

1. Unlawful Use of Containers. Deposit refuse in any solid waste containers not owned by such person without the written consent of the owner of such containers.

2. Interfere with Collectors. Interfere in any manner with solid waste collection equipment or with solid waste collectors in the lawful performance of their duties as such, whether such equipment or collectors be those of the City, or those of any other authorized waste collection service.

3. Incinerators. Burn rubbish or garbage except in incinerators designed for high temperature operation, in which solid, semisolid, liquid, or gaseous combustible refuse is ignited and burned efficiently, and from which the solid residues contain

little or no combustible material, as acceptable to the Environmental Protection Commission.

4. Scavenging. Take or collect any solid waste which has been placed out for collection on any premises, unless such person is an authorized solid waste collector.

**105.11 RECYCLING PROGRAM.** The City shall provide for the collection of recyclable material at the City recycling bins. All recyclable material shall be separated and deposited at the recycling bins in accordance with the rules and regulations as established by the Council. It is unlawful for any person to dispose of any solid waste, except recyclable material, in the City recycling bins.

**105.12 SANITARY DISPOSAL PROJECT DESIGNATED.** All solid waste, other than hazardous waste, generated by residential, commercial, industrial, or institutional premises, within the City limits shall be delivered to the Adair County Landfill and Recycling Center, or such other landfill as the City may formally designate from time to time.

## CHAPTER 106

# COLLECTION OF SOLID WASTE

**106.01** Collection Service  
**106.02** Collection Vehicles  
**106.03** Loading  
**106.04** Frequency of Collection  
**106.05** Bulky Rubbish

**106.06** Right of Entry  
**106.07** Contract Requirements  
**106.08** Collection Fee  
**106.09** Lien for Nonpayment

**106.01 COLLECTION SERVICE.** The City shall provide by contract for the collection of solid waste, except bulky rubbish as provided in Section 106.05, from residential premises only. The owners or operators of commercial, industrial, or institutional premises shall provide for the collection of solid waste produced upon such premises.

**106.02 COLLECTION VEHICLES.** Vehicles or containers used for the collection and transportation of garbage and similar putrescible waste or solid waste containing such materials shall be leak-proof, durable and of easily cleanable construction. They shall be cleaned to prevent nuisances, pollution, or insect breeding and shall be maintained in good repair.

*(IAC, 567-104.9[455B])*

**106.03 LOADING.** Vehicles or containers used for the collection and transportation of any solid waste shall be loaded and moved in such a manner that the contents will not fall, leak, or spill therefrom, and shall be covered to prevent blowing or loss of material. Where spillage does occur, the material shall be picked up immediately by the collector or transporter and returned to the vehicle or container and the area properly cleaned.

**106.04 FREQUENCY OF COLLECTION.** All solid waste shall be collected from residential premises at least once each week and from commercial, industrial and institutional premises as frequently as may be necessary, but not less than once each week.

**106.05 BULKY RUBBISH.** Bulky rubbish which is too large or heavy to be collected in the normal manner of other solid waste may be collected by the collector upon request in accordance with procedures therefor established by the Council.

**106.06 RIGHT OF ENTRY.** Solid waste collectors are hereby authorized to enter upon private property for the purpose of collecting solid waste therefrom as required by this chapter; however, solid waste collectors shall not enter dwelling units or other residential buildings.

**106.07 CONTRACT REQUIREMENTS.** No person shall engage in the business of collecting, transporting, processing or disposing of solid waste from residential premises for the City without first entering into a contract with the City. This section does not prohibit an owner from transporting solid waste accumulating upon premises owned, occupied or used by such owner, provided such refuse is disposed of properly in an approved sanitary disposal project. Furthermore, a contract is not required for the removal, hauling, or disposal of earth and rock material from grading or excavation activities, provided that all such materials are conveyed in tight vehicles, trucks or receptacles so constructed and maintained that none of the material being transported is spilled upon any public right-of-way.

**106.08 COLLECTION FEE.** The collection and disposal of solid waste as provided by this chapter are declared to be beneficial to the property served or eligible to be served and there shall be levied and collected a fee therefor in accordance with the following:

*(Goreham vs. Des Moines, 1970, 179 NW 2nd, 449)*

1. Fee. The fee for solid waste collection and disposal service, used or available, is \$14.25 per month for each residential premises and for each dwelling unit of a multiple-family dwelling for the collection of two 33-gallon bags or containers, not exceeding 130 pounds, each week. Each additional bag or 65 pounds of solid waste set out for collection must have a City sticker attached thereto.
2. Payment of Bills. All fees are due and payable as part of a combined service account under the same terms and conditions as payment for water and electric services, as established by the Utility Board of Trustees.

**106.09 LIEN FOR NONPAYMENT.** Except as provided for in Section 99.06 of this Code of Ordinances, the owner of the premises served and any lessee or tenant thereof are jointly and severally liable for fees for solid waste collection and disposal. Fees remaining unpaid and delinquent shall constitute a lien upon the property or premises served and shall be certified to the County Treasurer for collection in the same manner as property taxes and the provisions contained in Section 99.07 relating to lien notices shall also apply in the event of a delinquent account..
